Notes from the producer:

Established in 1974 with 4 hectares in the Jasnieres appellation in the Loire. The domaine currently has 13 hectares of organically farmed land and the estate itself boasts 3 guest rooms.

Sylvie and Joël took over in 1974. Their son, Ludovic and daughter, Dorothée took over in 2012 and converted to organic farming

practices.

WineWise Notes:

Tempting though it might be to cite the off-the-charts hipness factor of this wine (sparkling Pineau d'Aunis from one of France's most obscure appellations, made without malolactic fermentation) we prefer instead to concentrate on its ebulliently original aroma (blackberries licked with tar) and its unspittably delicious flavour, allied to alcohol of just 11.5%.

Joel Gigou continues to be the iconic producer of Jasnières. This miniscule appellation is 25 miles north of Tours in the Coteaux du Loir (itself an appellation barely larger, where Gigou also has holdings). The whites are a product of that magical Loire symbiosis between Chenin Blanc and tufa. Arguably, the expression here is the most singular and extreme in all the Loire region. Gigou is a conscious archaist. One look at the ancient photograph on his labels of peasants tilling the vineyards will confirm that. But the wines will hold their own against all that modern wine-wizardry can throw forth. They have that thrilling fusion of fruit and mineral which only the greatest Rieslings, white burgundies and Savennières can offer, surmounted by an ethereal floral perfume that brings tears to the eye. Son Ludovic has been groomed to take over the estate, and he has proved to be as attuned as his father to the qualities that are Jasnières' hallmark. When tasted amongst other wines of the appellation, they were as palpably dominant as any producer we have ever encountered in a comparative tasting. A big hit with David Schildknecht. We have now bitten the bullet and brought in our first reds and sparkling wine. The wines are organic, the yeasts are native.
